

AiM Webinar
“Using AiM Data for Vehicle Development”
9/15/20
Edited Q&A

1 **Q:** The Poll for AiM hardware never appeared.

A: I noticed that on the browser version of Zoom, polls do not appear. I moved to the Zoom app and they come up, both on Windows and Mac.

2 **Q:** When testing, is there some metric you use to determine when it's time for new tires?

A: [Answered live at 17:15]

3 **Q:** The Lambda shown currently on screen, is that a wide band lambda sensor or an OEM one?

A: [Answered live at 25:57]

4 **Q:** Is the Limited Slip Check channel just the speed difference between the driven wheels?

A: [Answered live at 25:54]

5 **Q:** What caused the little brake pressure spikes at 400 and 7200 ft?

A: [Answered live at 47:04]

6 **Q:** What happened with the steering angle just before 8000 ft?

A: [Answered live at 51:22]
