

Using data collection to go a lot faster

Race Intelligence seminars

presented by Precision AutoResearch

Precision AutoResearch will host two very informative and instructional sessions, Presented by renowned race engineer and technical consultant, David Redszus, these sessions are guaranteed to help you learn quickly and go faster using data collection.

Friday June 13 - 12:00pm—7:00pm

LEVEL I:

INTRODUCTION TO DATA ACQUISITION

If you have a new system or are considering buying one, this session will be very useful to get started properly and quickly. Comprehensive orientation of the new Race Studio2 software (setup and analysis) will assist long-time AIM users.

*Overview of Data Collection Systems
Components and Racer Benefits
In-car installations made easy
Setups and configuration advise for your specific applications
Detailed, interactive RaceStudio2 software tutorial.
Organizing your data for easy retrieval and quick analysis
Downloading, viewing lap data, and drawing track maps
Basic data review & analysis*

Saturday June 14 - 9:00am—4:00pm

LEVEL II: (Level I required)

DATA ANALYSIS TECHNIQUES & TRICKS

While intended for existing AIM system data users looking to become advanced users, the techniques and tricks presented are applicable to other data analysis systems as well.

*Establishing your analysis strategy
Prioritization & Grouping of Data
Math Channels: development & use
Comparing Multiple Laps & Tests
Creative Data Analysis Techniques
Special sensors, their proper use and interpretation
Analyzing with Video (DaVID), GPS, and CAN/Serial data
Advanced Predictive Analysis review using **RaceDataPower** software*

These will be intense, informative sessions, not sales promos! Bring your laptop and all your questions. An informal question/answer session will be available after the seminars to discuss your specific applications.

These seminars will be held at

1009 Commerce St.
Buffalo Grove, IL 60089
(847) 465-8837

Seminar Information

FRIDAY session will begin promptly at noon and run until 7:00pm

SATURDAY session will begin promptly at 9:00am and run until 4:00pm

Seminar materials, notebooks and refreshments/snacks will be provided.

Please pre-register! The cost of the seminar session is \$95 per day, or pay only \$175 for both days, prepaid. No walk-ins, please.

Bring your laptop (with RaceStudio2 software) and power supply!

DIRECTIONS:
