AiM UTV/ATV Transmission Belt infrared temperature sensor

Release 1.00
1 Introduction

This datasheet shows how to install the transmission belt temperature optical sensor for UTV/ATV applications. AiM loggers can measure the transmission belt operating temperature using an infrared sensor directly pointed to the measure points. The sensor part number is:

- Belt temperature sensor

X05ITS01A01

2 Installation and connection

The image below shows an infrared temperature sensor installed from top on the left and from bottom on the right.
