

**CAN Data**

## Compatible protocols – SmartyCam GP HD 2.2

---

**Question:**

Which kind of data communication protocols are supported by SmartyCam GP HD 2.2, in order to connect it to my vehicle Engine Control Unit (ECU) directly?

**Answer:**

SmartyCam GP HD 2.2 manages only standard CAN communication protocols, that are automatically broadcasted by the ECU.

SmartyCam GP HD 2.2 does not manage:

- CAN communication protocols which simulate serial data streams
- CAN communication protocols with remote frame (requests for data transmission)
- K-Line communication protocols
- RS232 communication protocols
