RS3A User Interface

Database Layout

The main screen is separated into 3 areas: Database, Sessions, and Summary. These refine your selection and information as you get to the next one.

The screenshot displays the RS3A User Interface with three main sections highlighted by red boxes and labels:

- Database:** A list of events on the left side, including dates, tracks, and session details.
- Sessions:** A table of sessions for a specific event, showing time, laps, and venue type.
- Summary:** A detailed view of a session, including a table of lap times and a graph of GPS speed over distance.

Sessions Table Data:

Settings for Import and Filter

The gear in the database area allows you to import sessions from a folder, change the database filters, and clean/compress the DB.

The screenshot shows the RaceStudio3 interface. On the left, there's a sidebar with 'All Events (150 sessions of 2480)' and a list of sessions. A gear icon is highlighted in the top right of this list. A context menu is open, showing options: 'Import', 'Change DB Filters', and 'Cleanup/Compress DB'. The main area displays a table of sessions for 'NHMS Road - 2021, October 31 - Test'. Below the table, there's a 'Sessions of 2480' section with a gear icon and the same context menu. At the bottom, there's a table of laps and a graph of GPS Speed (mph) vs Distance (ft).

The final two buttons are for math channels and track map/segments. These have been covered in previous webinars and deserve their own presentation.

The screenshot shows the RS3A User Interface with a track map for Watkins Glen. The interface includes a toolbar at the top with various icons. The main content area displays a table of race results for two dates: 2021, Jun 13 and 2021, Jun 12. The table has columns for Time, Lap(s), best, Venue Type, Racer, Vehicle, Championship, and Track. The first date, 2021, Jun 13, shows five races with times ranging from 5:00 PM to 10:17 AM. The second date, 2021, Jun 12, shows three races with times ranging from 9:58 AM to 3:44 PM. All races are categorized as 'Test 1' and were held at Watkins Glen.

RS3A User Interface

Map Settings

If you go into the settings, you can choose what affects that window. For maps, it would be the line thickness, color options, and display mode. This is also where you choose what windows are hidden when you hit the space bar.
