Edited Q&A

1 **Q:** I think you saw data acquisition being born. How was it in the beginning? Which sensors did you have? What could you get out of it?

A: [Answered live at 52:00]

2 **Q:** Is there anything that you look at in the data that indicates whether a car correction or driver correction is needed?

A: [Answered live at 45:58]

3 **Q:** Is there criteria for when historical data becomes obsolete and, if not, what's a good way to archive data? Related: Can you use data obtained from other teams or even other championships?

A: [Answered live at 57:24]

4 **Q:** When testing do you have cameras outside the car looking at tires or other things?

A: [Answered live at 53:55]

5 **Q:** Roger, on your Thunderhill story with the Spec Miata, what was the fix for the entry over-steer?

A: [Answered live at 55:50]
