

AiM Webinar
"RaceStudio3 Analysis Beta Software Update #5"
12/1/20
Edited Q&A

1 **Q:** Do these export options export all the AiM logged data?

A: [Answered live at 15:10]

2 **Q:** Can you export math channels?

A: [Answered live at 15:40]

3 **Q:** How about a shock position example where you want to zero a line?

A: [Answered live at 16:10]

4 **Q:** Is the alarm function also working in channel reports?

A: [Answered live at 37:30]

5 **Q:** Are these simply 'alarms' in the data review or do they transfer to the dash display while on track?

A: [Answered live at 24:38]

6 **Q:** Is the video latched to the anchor or measuring point?

A: [Answered live at 24:22]

7 **Q:** Are the X/Y plots available yet?

A: [Answered live at 25:05]

8 **Q:** To clarify, the "software alarms" would be applied to any data imported or downloaded?

A: [Answered live at 38:13]

9 **Q:** Is the time difference added to the channel overlays for the track map?

A: [Answered live at 37:45]

10 **Q:** Can you remove the Google map icons?

A: [Answered live at 35:35]

11 **Q:** I'm assuming that the dots on the map are where data has been collected, i.e. the sample rate?

A: [Answered live at 38:45]

12 **Q:** Can you show the first way to set the channel for the XY?

A: [Answered live at 53:26]

13 **Q:** When selecting the X Axis via the channel list, it replaces both XY graphs. Would it be possible to have multiple XY graphs displayed instead?

A: [Answered live at 55:35]

14 **Q:** How do we report bugs in RS3A?

A1: In the beta, you can click the icon in the top right with your name and then click “send feedback to AiM”.

A2: [Answered live at 1:06:30]
