

AiM Webinar
"Going Further with Track Maps"
6.11.20
Edited Q&A

1 **Q:** Can this also be done with GPS Speed?

A: Yes, just select that channel in the settings.

2 **Q:** Will RS3 analysis allow multiple windows of the track report to be shown?

A: RS3A is still being built but I'm fully in control of what will be there. So, I'd say yes! :-)

3 **Q:** Can you permanently change the default for the color channel?

A: [Answered live]

4 **Q:** Is it possible to compare 2 separate laps from this session or 2 best laps from 2 different drivers in this same format?

A: [Answered live]

5 **Q:** Is "Full Scale" set too low for this car for ABS (LAT G)?

A: [Answered live]

6 **Q:** Since Max G could be influenced by aero, would it be more useful to create a math channel that changes Max G based on MPH? This way you could see if Max G is being used properly for different speed corners.

A: [Answered live]

7 **Q:** Can you zoom in on this map?

A: [Answered live]

- 8** **Q:** When comparing laps from different dates/sessions, there can be significant offset/drift in the GPS location data. Is there a way to offset the GPS location of one lap vs. another to manually line them up at known points?
- A:** [Answered live]
-
- 9** **Q:** Does the Solo2 DL have the same GPS capabilities as the GPS08 unit?
- A1:** The GPS receiver is the same, so yes.
- A2:** [Answered live]
-
- 10** **Q:** Can I measure Trail Braking by comparing Throttle Position, Brake Pressure and 1st derivative of Lat G? All should be at zero at the apex, correct?
- A:** Maybe, I have never done it that way though. Give it a try!
-
- 11** **Q:** Will there be a webinar regarding LO206 karting?
- A:** I do not we believe we will have specific LO206 webinar, but karting in general, yes!
