“Advanced Karting Analysis Techniques”
8/18/20
Edited Q&A

1 **Q:** I autocross a shifter kart with a TM engine. Are there any secrets to determining which gear I should be in for each corner with only a limited number of runs?

A: [Answered live at 20:15]

2 **Q:** Is it a good idea to compare the G_sum math channels of different laps or it is better to focus only on the lateral acceleration?

A: [Answered live at 43:00]

3 **Q:** What are the three spikes on the radius channel around 900-1150 ft?

A: [Answered live at 40:50]

4 **Q:** Can you explain the bogging channel for the LO206?

A: [Answered live at 49:00]

5 **Q:** Can the bogging channel be used with a car?

A: [Answered live at 1:06:30]

6 **Q:** How do I make the GPS view show one particular channel and then change it to another channel?

A: [Answered live at 1:07:03]
