

AiM Webinar
"Identifying Correct Driving Techniques"
9/1/20
Edited Q&A

1 **Q:** When downshifting, do you recommend going 5-4-3 or 5-3?

A: [Answered live at 29:42]

2 **Q:** How do you open different logs from different devices on different days?

A: Open your first test, then go back to the test database and open your second test.

3 **Q:** If the throttle position sensor is reading in percentage, is it breaking it down to tenths of a percent?

A: [Answered live at 33:17]

4 **Q:** Is the spike in the brake pressure also translated as a spike in the longitudinal acceleration?

A: [Answered live at 42:14]

5 **Q:** Any braking tips on non-ABS vs ABS cars?

A: [Answered live at 43:45]

6 **Q:** Any chance I can get the data files from the examples used here? I would love to use them in the classroom since there are differences between drivers but they're not so drastic as to be relatively unrealistic.

A: Copy and past this link in your web browser:
